

BRIDGEVALLEY COMMUNITY & TECHNICAL COLLEGE

CAMPUS CRIME, FIRE, AND SAFETY REPORT

2021

This information is being provided to you as part of the commitment to your safety and security on the campus of BridgeValley Community & Technical College and is in compliance with the Crime Awareness and Campus Security Act of 1990 and the 1998 Amendment to the Higher Education Act of 1965. You can view this pamphlet and other relevant safety and security materials by accessing our website: <http://www.BridgeValley.edu/crime-statistics>

Security Statement: The protection of property and personnel at BridgeValley Community and Technical College (BridgeValley) is provided by the Office of Police Services, which consists of three certified and sworn officers having law enforcement and arrest powers. The department is augmented by personnel who assist in building and property protection and act as additional “eyes and ears” by reporting suspicious activity and/or potentially hazardous

situations. In addition, staff, faculty and students, with assistance of the Office of Police Services, form a “partnership in crime prevention.”

The Office of Police Services maintains liaisons with and cooperative working relationships with local, state, and federal law enforcement agencies. The department has entered into written Memoranda of Understanding with Kanawha County Police and Montgomery City Police. The department, aside from having its own campus-wide radio network, is also linked to outside law enforcement agencies via METRO (centralized dispatch for Police/Emergency Personnel). The Police are charged with the responsibility for investigation, follow-up, apprehension, and resolution of any incident reported to us. For the department to achieve its mission, it is critical that all members of the community report crimes promptly and accurately.

Department personnel are actively involved, as committee members, panelists, presenters, etc., in the various BridgeValley educational and awareness programs dealing with alcohol/drug abuse, self-protection and safety and the protection of personal property and property belonging to the institution. The security awareness programs are designed to inform students and employees about campus safety procedures and practices and to encourage students and employees to be responsible for their own security.

No institution can guarantee the total safety and security of all its members. Only through community support and involvement can we be successful in achieving our goal. We ask you to help us by not taking unnecessary risks, by locking your door and securing the facilities when you leave, and reporting any suspicious activity or crime immediately. Together, we can help make the College a more safe and secure environment.

The Amendment of 1998 to the Higher Education Act of 1965 established that henceforth the portion of this law addressing campus security issues, previously known as Campus Security Act, now be known as the Jeanne Clery Disclosure of Campus Security Policy and Crime Statistics Act. The Amendment adds arson and manslaughter to the list of reportable crimes and requires reporting manifestation of prejudice where evidence of such is found. It also requires that the location of reportable crime be included i.e. (1) on campus, (2) non-campus building or property, or (3) on public property. Additionally the Amendment requires statistical data on crimes where evidence of prejudice is manifested and that timely warning be provided on crimes representing a continuing threat to the campus population.

The time frame represented by the statistics is the calendar year (January 1 through December 31) of year(s) noted.

The statistics represent criminal activity made known to and officially recorded by the Office of Police Services pertaining to *crimes against persons* (murder, rape, manslaughter and aggravated assaults); *crimes against property* (robbery, burglary, arson and motor vehicle theft) and arrests or referrals to campus disciplinary system for (1) liquor law violations; (2) drug abuse violations, and (3) weapon law violations.

In addition, statistics are provided on off-campus crimes reported to and handled by outside local law enforcement agencies, but coordinated with the College due to their having an impact on BridgeValley.

Access/Security of Grounds & Facilities: BridgeValley, as a “public and open institution,” has no physical barriers delineating its property boundaries. Access to grounds and buildings is “controlled” by Office of Police Services personnel through constant patrol activity and the immediate response to reports of suspicious person(s) or activity.

Prohibited Activity

All possible efforts will be made to locate the student, to determine his or her state of health and well-being. The Office of Police Services will informally enlist the aid of the police agency having jurisdiction.

Concurrently College officials will endeavor to determine the student's whereabouts through contact with friends, associates and/or employers of the student. Police Services will determine if the student has been attending class labs, recitals, and scheduled organizational or academic meetings. If located, verification of the student's health and well-being

will be determined. When and where appropriate, a referral will be made to the College health center for evaluation.

If not located, notification of the family and possibly other law enforcement agencies will be initiated via the initial report to determine if they may know the whereabouts of the person in question. If the student is an off campus student, appropriate family members or associates will be encouraged to make an official missing person report to the law enforcement with the pending jurisdiction. If the person is under the age of 18 and is not an emancipated individual the Office of Police Services will notify the student's parent or legal guardian immediately after the Office of Police Services has determined the student is missing.

The Office of Police Services will assist the primary investigative agency in all ways prescribed by law, if the student is an on campus student the Office of Police Services will open an official investigation, and retain status as the primary investigative unit. Upon closure of the missing person investigation all parties contacted will be notified of the status of the case.

Sexual Assault and Domestic/Dating Violence and Stalking

Sexual assault, domestic/dating violence, and stalking are prohibited and are taken very seriously by BridgeValley. The College encourages and offers educational programs to prevent such incidents and training to properly handle them should they occur.

Prevention Programming and Information

Sexual assault and domestic/dating violence and stalking can happen to anyone, no matter how prepared or cautious the person may be. Victims should not blame themselves or hesitate to report the incident. Whatever the circumstances, victims often fear being blamed, humiliated, or not believed. These feelings of fear, guilt, and helplessness can lead to depression, illness, and trouble with academics and relationships.

Remember, no one deserves or asks to be sexually assaulted or abused through domestic/dating violence and stalking. You are encouraged to report any incident to the College Police at (304) 205-6630 or 911. Victims of these crimes have the right to notify the Kanawha County Sheriff's Department, and College Police personnel will assist the student in notifying these authorities, if the student requests our assistance. Individuals may also report the incident to the institution's Title IX coordinator. The Title IX Coordinator, Katrina Whitt, is responsible for coordinating the institution's compliance with Title IX and located at 2001 Union Carbide Drive, South Charleston, WV 25303, Room 302. The institution's sexual misconduct policy, which includes sexual harassment and sexual assault, can be found in Board of Governors Policy A-5 at: <http://www.bridgevalley.edu/bog-adopted-policies>

A description of the grievance procedures for complaints against non students can be found at the following address:

The College conducts prevention programs for incoming students during the orientation process, and the college provides regular awareness training for faculty and staff through required professional development sessions. Ongoing prevention messages can be found on the campus digital messaging system and periodically through campus newsletters.

Victims of Rape, Sexual Assault, Domestic/Dating Violence, or Stalking

If you are raped or sexually assaulted, you should take the following steps:

1. Get medical attention immediately.
2. Save your clothing.
3. Report the incident to the police even if you decide not to prosecute.
4. Take advantage of available support systems.
5. Try to preserve all physical evidence. Do not wash, use the toilet, or change clothing if you can avoid it. If you do change clothes, put all clothing you were wearing at the time of the attack in a paper bag, not a plastic bag.

If you are the victim of a domestic/dating violence:

1. Assess your immediate safety needs.
2. Call police or 911.
3. Take photographs of abuse and/or property damage.
4. Obtain a copy of your medical reports.
5. Obtain a copy of the police report.

If you are being stalked:

1. Documentation is needed –write down the details.
2. Keep e-mail messages or social media posts, voicemails, texts, etc.
3. Report to the police.
4. Obtain restraining orders through the courts.
5. Monitor your behavior –don't act out against the stalker by committing an illegal act.

Victims of domestic/dating violence and stalking offenses are protected by law and should seek to report these incidents to the authorities, including the College Police. If you, your family, or a friend is in immediate danger, you should call 911 or go to your nearest police station as soon as possible. If you are suffering from a pattern of violence, you have the right to request a restraining order against the abuser. The police can assist you in this process. When the restraining order comes into effect, the offender will be legally prohibited from

coming near you. If you live with the abuser, he or she will be required to move out of the dwelling. The abuser will also be required to stay away from your place of work or your child's/children's school, if you have children. Following this process will also introduce you to the networks that can help you recover and take control again. In addition, the resources below are available to victims to obtain a medical examination and take advantage of available support systems.

Additionally, there are Emergency Response Flip Charts located next to each stairwell. Listed below are some procedures to follow in case of an emergency or evacuation situation:

- Know the emergency routes from your room and hall.
- Check to see if the door is hot or has smoke around it, if so stay in the room and wait to be evacuated by firefighters.
- Shut the door tightly when you leave.
- Exit the building and follow the directions of staff members.
- Do not remain in parking lot or in close proximity to the building. A minimum of 300 feet is recommended. The central location to gather is the large field behind the BridgeValley parking lot. Stay away from the building until the all clear is given.

Mass Notification System: BridgeValley Community & Technical College utilizes an emergency notification system called BridgeValley Connect to enable the College's ability to reach students, faculty, and staff with time-sensitive information during unforeseen events or emergencies. BridgeValley Connect is part of the College's overall emergency planning effort. The system uses voice, email, and text messaging to allow College officials to provide pertinent details and instruction on appropriate responses during critical incidents. In order to receive these important messages all three ways, you must provide contact information via an online form found on the institution's website. By default, emergency messages go to all active College e-mail accounts and to faculty and staff office telephones that are listed in the campus directory. We strongly encourage all members of the campus community to take advantage of the opportunity to provide multiple contact options. For more information on BridgeValley Connect and to sign up for this service, visit the BridgeValley website under the Current Students tab and then E-Tools and Resources. Sign up now! BridgeValley Connect will be used when it is imperative to contact students, faculty, and staff as quickly as possible. This can include, but is not limited to, cancellation of classes due to severe weather conditions, a fire or a chemical leak requiring the evacuation of the building or closing the campus, or an ongoing criminal incident that requires members of the campus community to take action to ensure their safety.

Policy Statement on Mass Notification Policy Statement:

BridgeValley Community & Technical College have established guidelines to be used in the mass distribution of emergency alerts to students, faculty, and staff that would be affected directly by a critical incident which poses an imminent threat to the health, and safety of the campus community.

Text, voice and e-mail message alerts are one of the elements of the comprehensive emergency response protocol that provides for rapid notification to students, faculty, and staff about situations or events that are occurring on campus and its surrounding areas.

The notification messaging service utilized by BridgeValley Community & Technical College requires users to opt-in to the service by subscribing their cell phone or wireless device. To sign-up, visit <http://www.bridgevalley.edu/bridgevalley-connect>. The e-mail component of the program is provided automatically when a College e-mail address is assigned.

Notifications

Immediately after sending an emergency alert message the designee who created the message shall notify officials of the College that the message has been sent and shall describe the rationale for activating the notification system. The purpose of this communication is to ensure that all offices are sharing consistent information and not sending any duplicate messages. The Office of Police Services will subsequently coordinate with the appropriate agencies and institutional departments in accordance with Emergency Operations Plan.

Once the all clear has been given and the situation is resolved, then a formal message will again be sent to advise all of the status of the incident.

An electronic record will be maintained via the messaging system concerning each activation. Copies of these messages can be made available through proper channels.

Partnership in Crime Prevention: The Office of Police Services recognizes the need for and strongly encourages “public involvement” in crime prevention within campus property areas and the surrounding community. It is through the participation and involvement of each person on campus that the goal of “providing a safe and tranquil campus” can be achieved.

Each member of the “College Community” can assist the Office of Police Services to maintain a safe environment by committing to a “partnership in Crime Prevention” and accepting a responsibility for practicing personal safety on a daily basis by not taking unnecessary risks, securing personal property, locking doors and securing facilities, and by the immediate reporting of crime and/ or suspicious activity.

Your personal commitment and active participation in Crime Prevention assures that BridgeValley continues to maintain a safe and tranquil environment conducive to learning, allowing each individual the opportunity to experience and achieve to his/her full potential, being worry-free to “carve” a place in BridgeValley’s “living laboratory of human relations.”
