

## ACT Prep Class

The ACT Prep class is designed to help high school students perfect their knowledge of the four subject areas – English Reading and Comprehension, English Skills, Science, and Mathematics – in preparation for taking the national ACT Exam. This fast-paced, four-week course is taught by subject area using the Princeton Review “Cracking the ACT” textbook, and includes several practice tests. Students are responsible for individual exam registration.

### Cost: \$200

Class work can help you prepare to take the ACT® test, but additional practice can help you do your best. The sample questions and tests are taken from previous ACT tests to create familiarity with the format and avoid surprises on test day. As you see progress with practice tests, you will have the confidence to know you can do your best on the real test.

### Students Learn About

- *Reading Comprehension*
- *English Skills*
- *Science*
- *Mathematics*
