

Makerspace

What is a makerspace?

A makerspace is a lab where makers share ideas, equipment, tools, and knowledge. Makerspaces often foster creative entrepreneurship and small business startups. Makerspaces are a places where artistic and industrial crafting skills are valued in an increasing automated world.

Join one of the GRIDs makerspaces

Start with an idea. Work collaboratively on projects with other creative people. Explore new techniques or improve skills with equipment suitable for small scale production runs. The GRID at BridgeValley has several rooms devoted to various types of equipment that will open by or before June 30th including wood working, metal working, textiles, painting, ceramics, brewing, digital design, and video and audio production.

The GRID is located at 807 2nd Avenue in Montgomery, WV.

Cost:

Guest pass - \$20 per day during operational hours

Monthly membership - \$150 per month with 24/7 hour access

Students Learn

- *Wood Working*
- *Metal Working*
- *Textiles*
- *Painting*
- *Ceramics*
- *Brewing*
- *Digital Design*
- *Video and Audio Production*
