Smartphones for Seniors

Explore, Learn & Have Fun!

During this free three-hour workshop, seniors will learn how to use their smartphones almost as well as their grandchildren!

Learn how to take pictures/videos and post them to Facebook, listen to internet radio or a play list, get directions with GPS mapping services, and send silly pictures to your friends with Snapchat's funny filters. We will also discuss the serious hazards of using a smart phone.

Students just need to bring their own smartphone!

Cost: Free
