

ARTICULATION AGREEMENT  
BETWEEN  
BRIDGEVALLEY COMMUNITY and TECHNICAL COLLEGE  
AND  
WEST VIRGINIA STATE UNIVERSITY

This agreement is to articulate the Two plus Two program between the Allied Health Division's Associate in Applied Science degree in Behavioral Health Sciences to the Bachelor of Science in Health Sciences-Leadership in Allied Health.

This Articulation Agreement is entered into by and between BridgeValley Community and Technical College (hereafter referred to as BVCTC) and West Virginia State University (hereafter referred to as WVSU).

WHEREAS, the parties desire to encourage and facilitate the establishment of specific articulation provisions between institutions, and

WHEREAS, the parties intend to promote the Two Plus Two concept of student's education experiences including a seamless transition from associate degree programs to baccalaureate degree programs to encourage the recognition of prior education efforts and students recognition of the importance of continuing their education, and

WHEREAS, the intent of this agreement is to facilitate the transfer of associate degree students from BVCTC to WVSU. The Two plus Two program will provide students who achieve an Associate of Applied Science degree in Behavioral Health Sciences at BVCTC, a process to transition into the Bachelor of Science in Health Sciences-Leadership in Allied Health program at WVSU.

NOW, THEREFORE, the parties agree to cooperate in articulating programs in accordance with the terms set forth herein.

This agreement commits WVSU to accept all 60 credits earned at BVCTC as delineated in the suggested courses that are a part of this agreement. All 60 credits will be accepted from any Associate of Applied Science degree in Behavioral Health Sciences program, as well as other related fields, thus only requiring an additional 60 credits to be taken at WVSU for students to earn a Bachelor of Science in Health Sciences: Leadership in Allied Health.

The agreement may be amended by mutual agreement of the colleges. It may be terminated by either party with one year's notice, provided obligations by either party to enrolled participating students are met. Such obligations are those normally incurred by the colleges to their clients for reasonable opportunity to complete programs of study.

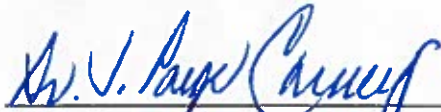

The parties to this agreement shall review the relationship every two years to assess its effectiveness and usefulness. The parties to this agreement shall inform the other party promptly if the curricular requirements of the relevant programs change.

Both institutions will designate a contact person on their respective campuses to represent their interest and to carry out the program mutually agreed upon. These representatives will meet or otherwise communicate as needed to evaluate the program and propose changes.

Any minor changes, (course number, name, or designation), that are brought through the Academic Policy Committee or Education Policy Committee will not require review and reauthorization of this agreement only updates of the respective addendum. Major changes to program curriculums or course content changes will require notification to the impacted program leaders.

Any written notice under this agreement shall be addressed as follows:

Vice President of Academic Affairs  
West Virginia State University  
P. O. Box 1000

## Health Science Degree -Leadership in Allied Health

### Program Overview

The Bachelor of Science in Health Science -Leadership in Allied health and Rehabilitation is a 2 + 2 program requiring an Associate Degree in an Applied Science. This emphasis area is designed for health care providers in allied health fields, or those desiring to work in those fields. This concentration will be built upon the students existing professional knowledge to enhance their skill in communication, critical thinking, problem solving, research, and health theories. In addition, the concentration will equip graduates with leadership skills as they relate to the allied health discipline. There are sufficient elective credit hours for students to also obtain a Leadership Certificate from the College of Professional Studies if they wish to do so.

### Career Opportunities

Successful completion of this concentration will increase the mobility of graduates into leadership positions in their respective professions and/or opportunities in graduate school. With the emphasis area, graduates are able to work in healthcare supervisory roles, disability specialists roles, as well as with rehabilitation facilities.

Students MUST have and Associate Degree in an Applied Science Field before entering this program. (60 hours or more)

First Semester	Hours	Milestone(s)	Milestone Note
G ED credits (if remaining)	3		
G ED credits (if remaining)	3		
HHP 354	3		Pass all HHP course with a "C" or better
