

Workshops at The GRID

EXPLORE, CREATE, AND HAVE FUN!

BridgeValley offers a variety of workshops led by master artisans at The GRID, which is located at 807 2nd Avenue in Montgomery. The GRID is an acronym for Generate, Renew, Innovate, and Design. The MakerSpace workshops are usually 2-4 hour sessions during one day.

Some of the workshops will be for beginners; others will be more challenging. Over time, participants will be able to progress from novice, to journeyman, to master skill level.

Our resident artists and makers will participate in local festivals and community events, and operate studios, galleries, and retail spaces. The GRID is a vital component of our college programming.

COST: VARIES BY WORKSHOP

The affordable registration fees include instruction and supplies. Spend a day. Learn something new. Come away with a skill!
