

BridgeValley

SUCCESS STORIES

At age 30, I became a single mother. I had never attended college and wanted to better my life and the lives of my children.

BridgeValley gave me the opportunity to do this. The faculty and staff here believed in me when I didn't have confidence. They supported me through my struggles and nurtured me in an amazing learning environment. This place helped change my life and mold me into the woman I am today and I will forever be grateful for that.

I first enrolled in 2011 and graduated in 2014 with a degree in HSRS Addictions. I was hired part-time by BridgeValley in 2015 as a peer coach while I worked on my bachelor's and master's degrees.

It is a great place to attend because you have awesome faculty willing to give you one-on-one attention and a staff that genuinely cares about the things going on in your life that may affect your performance in the classroom. I had great support and encouragement from faculty and staff as a student. They helped me realize my potential as a leader and encouraged me to keep going when it would have been easy to give up.
